Publicaciones y actividades de difusión de resultados

Ponencias y Comunicaciones a congresos

- ALONSO, F.; ROJO, J. L. ; MOSCOSO, M. A.
  Reconstruction of Transmembrane Currents Using Support   Vector Machines and Its Application to Endocardial Mapping: A Model Study in Computers in Cardiology , Durham, ESTADOS UNIDOS DE AMERICA, 2007.

- BONILLA, L. L.
  Ideas from granular gases in the kinetic theory of semiconductor nanostructures, GRANFLO07: Granular Fluids-A Proving Ground for Nonequilibrium Statistical Mechanics. Conference celebrating Javier Brey's 60th year*, SEVILLA*, ESPAÑA, 2007.

- BONILLA, L. L.
  Nonlinear electronic transport in the kinetic theory of semiconductor nanostructures, Material Theories*, OBERWOLFACH*, ALEMANIA, 2007.

- BONILLA, L. L.
  Depinning and motion of crystal dislocations, 11th International Symposium on Continuum Models and Discrete Systems*, PARIS*, FRANCIA, 2007.

- BONILLA, L. L.; CARPIO, A.; VEGA, J.M.; VENAKIDES, S.
  Recent Advances in Nonlinear Partial Differential Equations and Applications. A Conference to honor P.D. Lax and L. Nirenberg on the occasion of their 80th birthdays; en: Proceedings of Symposia in Applied Mathematics 65 , SOCIETY AMERICAN MATHEMATICAL, 2007.

- CARRETERO, M. ; ESCOBEDO, R.; BONILLA, L. L.; PLATERO, G.
  Multiquantum well spin polarized current oscillator, 17th International Conference on Electronic Properties of Two-Dimensional Systems (EP2DS-17)*, GENOVA*, ITALIA, 2007.

- DORN O. ; MOSCOSO, M. A.
  A new level set technique for the crack detection problem" Proc. in Applied Mathematics and Mechanics (PAMM), , 6th International Congress on Industrial and Applied Mathematics*, Zurich*, SUIZA, 2007.

- MOSCOSO, M. A. ; DORN O. ; IRISHINA, N.
  Level-set techniques for microwave medical imaging, Proc.in Applied Mathematics and Mechanics (PAMM) , 6th International Congress on Industrial and Applied Mathematics*,, Zurich*, SUIZA, 2007.
